MINE DUTY PRODUCTS

***UNDERGROUND
PORTABLE SUBSTATION
FROM 200KVA UP TO 10MVA***

**ALL-IN-ONE
EQUIPMENT**

ADRIA'S underground substations are specifically designed and built with ease of installation in mind. They are available in a wide variety of capacities and possible configurations, but always packing the same high level of reliability, safety and robustness. Underground substations allow a fast installation, without the need of extra cabling between equipments. In a world where time is money, this product will allow you to keep your focus on your operations, and not wasting time on complex equipment installation.

KEY FEATURES

FLEXIBLE

- Primary voltage up to 38KV
- Various options available
- Can integrate PTO outputs, VFD, and others
- Product can be adapted to your specifications

STURDY

- Suitable to be lifted vertically for mine shaft
- Heavy duty skid mounted enclosure
- Fully welded 1/8 steel enclosure
- Mine duty, yet precision built allowing easy repairs

CONVENIENT

- Basically a plug and play equipment
- Standalone for easier transportation and setup
- External grounding connection
- Includes all protection systems (NGR, GF/GC, etc.)

Rated primary voltage	kV	2400V To 38kV
Rated output voltage	kV	200V To 38kV
Rated frequency	Hz	50/60Hz
Rated power	kVA	from 250kVA up to 10MVA
Enclosure type		NEMA 2 drip proof, NEMA 12, NEMA 3R
Working environment		Underground mine
Customization available		Yes, a lot!
